

Aquilon Energy Services hires Houston executive to lead sales

David Vinzant to lead company's sales team for the Americas

HOUSTON — June 7, 2018 — [Aquilon Energy Services](#) recently hired [David Vinzant](#) as its senior vice president and head of sales. Vinzant brings to Aquilon more than 30 years of experience managing the sales and delivery of software solutions for the energy industry. Based in Aquilon's Houston office, Vinzant will manage the company's Americas sales efforts for its [Energy Settlement Network](#)®, a cloud-based platform that automates the wholesale energy settlement process.

"Throughout his career, David has consistently driven impressive sales results for technology solutions in the energy industry," said Aquilon Energy Services CEO [Jeffrey Wagner](#). "I am confident he will build a strong sales team that drives increased adoption of ESN®."

Before joining Aquilon, Vinzant was Schneider Electric's vice president of sales for the Americas. He has also held executive-level sales and operations roles at PAS and SunGard Energy.

"Aquilon has created an innovative solution that addresses a significant need in the energy industry, helping settlement teams improve operations, auditing, compliance and security," Vinzant said. "I look forward to growing our sales team in Houston and across the Americas and helping more companies realize the benefits of ESN."

Vinzant graduated from Texas A&M University with a bachelor's degree in chemical engineering.

About [Aquilon Energy Services Inc.](#)

Aquilon develops innovative software and service solutions for the energy industry. Aquilon's Energy Settlement Network® (ESN®) enables energy participants of all sizes to manage, access and settle large volumes of power, oil and natural gas transactions with their counterparties.
